

## Results

Metro-Billing Services offers a complete ambulance billing program that reduces your involvement in an ever-changing world of insurance rules and regulations. We have been involved in ambulance billing for over 23 years and know what it takes to process claims in a timely manner while adhering to the abundance of rules, regulations and guidelines of the various reimbursement agencies. We will work hard to improve your reimbursements and cash flow so you can continue to provide the high quality care and transportation your patients deserve. If you have any questions or would like more information or pricing, please don't hesitate to contact us or stop in and visit us.

Tired of trying to keep up with the ever-changing requirements involved in ambulance service claims billing?

- Are you satisfied with your current ambulance claims billing process?
- Are your claims getting processed in a timely manner?
- When it comes to billing, how much of your time is being spent working with the billing process?
- Are you capturing all of the reimbursement dollars available to you?
- Does your current billing service handle legitimate claim denials, working through the appeals process and represent you in Medicare hearings?

Do you know your *total cost per claim* using your current billing process?

## Regulations

As health insurance and Medicare/Medicaid rules, regulations and policies become more complicated, it is getting extremely difficult to keep up with the changes. It is also very expensive to acquire, implement and maintain the technology required to electronically process and submit claims to the proper agencies. Metro-Billing Services is a *full service* billing agency and can provide your service with more than a typical billing service can.

## Full Service

- Trip ticket orientation and documentation training
- Assistance with HIPAA administrative policy requirements
- Initial claim Filing
- Entry into state required data systems
- 4 billing statements
- Appeals process when appropriate
- Accounts receivable management
- Accounts receivable management for installment payments
- Availability of numerous statistical and financial reports
- Secure document storage

## Customer Service

- Phone and Fax Service to handle Client and Patient billing questions.

Our billing department deals with insurance and Medicare/Medicaid issues on a daily basis. We monitor the top healthcare information sources to stay abreast of the most current changes and utilize the industry's leading ambulance billing software, Sweetsoft® Amazon HIPAA compliant software, to properly submit your claims for reimbursement. Costs are increasing to provide training, continuing education, and maintain and operate an ambulance. As reimbursements are reduced, it is increasingly important to receive the funds your ambulance service deserves and needs to maintain top quality emergency medical services for your community.
